ANNUAL

FINISHERS' MANAGEMENT

INDEX FOR 1977

All material that appeared in the January through December 1976 issues of FINISHERS' MANAGEMENT is listed according to subject matter, and cross-referenced where required. Following each listing you'll find a letter indicating the regular department in which the material was published.

For instance: (D)-D.C. Current & Economic Indicators, (E)-Editorial, (F)-Features, (M)-Management Memos, (O)-OSHA Notes, (S)-Shop Talk, (T)-Taxes & Money Management, (Y)-Your Business & The Law.

If a cross-reference is not followed by a letter, this indicates that the material was a feature article. The numbers in the right-hand column refer to the month, and page number. For example, 6-5 means June, page 5.
